

Date: September 23, 2024
To: Blair King, City Manager; City Council
From: Finance Department
Subject: July 2024 Financial Report

Executive Summary

The following report is intended to provide a summary of important financial information for the City of Bainbridge Island. Included in this report is an at-a-glance view of city financial health indicators, tables and charts comparing the financial data to the prior year, notes explaining outlier information, and status on American Rescue Plan Act (ARPA) spending.

Important note: Timing is a key factor in year-over-year revenue and expenditure variances. For example, the largest revenue source, Property Tax, is typically received in April and October. Additionally, contributions from other funds to the Capital Construction Fund are made at the beginning of the year for the full amount of expected spending. Due to the nature of capital projects and their variability from year-to-year, changes in capital spending compared to previous years are not a good indicator of financial performance.

Section 1: Fund Financial Health Indicators

Financial Health Indicators are derived from analysis of revenue, expenditure, and fund balance trends, as well as foreseeable situations that will impact future financial performance.

Fund	Indicator	Comments
General	Good	
Building & Development Services (B&DS)	Cautionary	Though 2024 revenue through June are higher than 2023 by \$245,000, expenses have increased due to a significant increase in insurance and legal costs. Despite positive revenue trends, the fund is still anticipated to require more General Fund support than originally forecasted.
Real Estate Excise Tax (REET)	Cautionary	2024 revenue through June is 2% lower than 2023 revenue. The uncertainty surrounding the real estate market continues to make this revenue source difficult to predict.
Other Governmental Funds	Good	
Water	Cautionary	Fund balance is expected to decrease by the end of 2024. A rate study is underway with results expected in Q1 2025.
Sewer	Cautionary	Fund balance is expected to decrease by the end of 2024. A rate study is underway with results expected in Q1 2025.
Storm and Surface Water	Good	

*Only cautionary indicators will include pertinent comments.

Section 1 Notes

- Other Governmental Funds include:
 - Streets
 - Civic Improvement
 - Affordable Housing
 - General Obligation Bond
 - Transportation Benefit
 - Transportation Impact
 - Capital Construction
- A rate study for the Water, Sewer, and Storm and Surface Water funds began in 2024 and is expected to conclude in early 2025.

Table 1: Summary of Year-to-Date Fund Activity

Table 1 compares 2024 year-to-date financial information with the prior year in two categories: Tax-supported funds and utility funds. Generally, tax-supported funds revenues are comprised of taxes, while utility funds generate revenue by charging fees for services. The table shows which funds fall into each of the two categories, and includes revenue, expenditure, and fund balance data by fund.

**In April 2023, the decision was made to claim general government expenditures against ARPA for the April 30th State and Local Fiscal Recovery Funds report to Treasury to avoid potential Federal claw-back of unobligated or unspent funds. The City is committed to the original planned spending of these funds and will continue to report on the status of these original ARPA projects

Table 4 Notes

- These amounts do not include transfers. Transfer amounts by fund can be seen on Table 1.
- Public Works – Public Works has \$47 million in capital projects budgeted in 2024. Due to project management capacity, several project budgets will likely go unspent in the current year and be carried forward into 2025. Major projects include the Winslow Water Tank, Madison Ave Improvements, Eagle Harbor/Wyatt Way Non-motorized Improvements, Wastewater Treatment Plant (WWTP) Upgrades, and the Sound-to-Olympic Trail.
- General Government – budget for this department includes a citywide vacancy rate of 5% on budgeted wages.
