From: Finance Department
Subject: April 2025 Financial Report

Executive Summary

The following report is intended to provide a summary of important financial information for the City of Bainbridge Island. Included in this report is an at-a-glance view of city financial health indicators, tables and charts comparing the financial data to the prior year, and notes explaining outlier information.

Important note: Timing is a key factor in year-over-year revenue and expenditure variances. For example, the largest revenue source, Property Tax, is typically received in April and October. Additionally, contributions from other funds to the Capital Construction Fund are made at the beginning of the year for the full amount of expected spending. Due to the nature of capital projects and their variability from year-to-year, changes in capital spending compared to previous years are not a good indicator of financial performance.

Table 1: Summary of Year-to-Date Fund Activity

Table 1 compares 2025 year-to-date financial information with the prior year in two categories: Tax-supported funds and utility funds. Generally, tax-supported funds revenues are comprised of taxes, while utility funds generate revenue by charging fees for services. The table shows which funds fall into each of the two categories, and includes revenue, expenditure, and fund balance data by fund.
